

## BREWING METHODS

The simple directions are to prepare as you would any fine gourmet coffee. Farmacy Gourmet Coffee is brought to you in whole bean form because this is the best way to keep your coffee's full taste and freshness.

Please grind your beans to the desired consistency (for a standard coffee maker a fine grind is best). We suggest that you use an un-dyed filter to truly enjoy the full, unique taste of this coffee. Prepare in any coffee maker, use a single cone filter type pour method, or a French press.

Suggested use is 2 tablespoons of ground coffee per 6 oz. cup. You may of course vary the amount to suit your individual desire and taste. Store at room temperature. Enjoy!

## COFFEE TALK ....

Coffee is the second largest traded commodity in the world. There are over 100 million coffee drinkers in the United States, consuming about 450 million cups per day. Coffee has, in the past, been given a bad report, but now the evidence is more in favor of moderate use. Commercial coffees are often heavily laden with pesticides and herbicides that are not only harmful to consume, but are also responsible for leaving that bitter aftertaste that is connected with the world's favorite beverage.

Our Farmacy Gourmet Coffee is organic, free of toxins, and tastes great. Our coffee is great at breakfast, lunch, dinner or anytime. You'll enjoy sharing this cup. And so will your friends! Now available in a water processed Naturally Decaffeinated version for those who don't want the caffeine.

## A GREAT CHOICE FOR THE HEALTH MINDED COFFEE DRINKER!

Imagine a coffee that starts the day without indigestion even on an empty stomach! Imagine a coffee with a fresh, clean, amazing, aroma! Imagine a coffee that tastes great and leaves no aftertaste! Imagine a coffee that feels great with no jitters! Farmacy Gourmet coffee is the one.

Farmacy Gourmet Coffee is proprietarily infused with 100 mg of organic extracts per ounce of beans. Each ounce contains a broad spectrum of polysaccharides that scientists are finding to be the active compounds that can bring us better health. Our 100% organic coffee is brought to a new level of perfection and pleasure by an infusion of organic extracts of: Cordyceps Sinensis, Ganoderma Lucidum, Agaricus Blazei, and Coriolus Versicolor. These magical extracts of nature work together with our perfectly roasted beans to bring you a cup of coffee to enjoy. The ancients knew about it, modern scientists are writing about it, isn't it time for you to rediscover it?
